

Muhammad Ubaid

Staff iOS Engineer | Mobile Team Lead

✉ m.ubaid.77@gmail.com ☎ +92 345 5220877 📍 Islamabad, Pakistan 🔗 m-ubaid-77.github.io

PROFILE

Staff-level iOS and Mobile Engineer with 12+ years of experience delivering production-grade iOS, Android, and Flutter applications. Proven expertise in SwiftUI, UIKit, Clean Architecture, CI/CD, automated testing, and SDK development.

Experienced in both individual contributor and Mobile Team Lead roles, owning system architecture, mentoring engineers, and driving end-to-end delivery for consumer and enterprise mobile products.

WORK EXPERIENCE

GitStart(YC S19) 🔗

Oct 2020 – Dec 2025

Mobile Team Lead (iOS, Android, Flutter)

San Francisco, CA - Remote

Revi 🔗 - Online Food Ordering App(SwiftUI)

- Rebuilt a legacy UIKit product into a fully **SwiftUI app**, delivering end-to-end App Store release as the **solo engineer**.
- Designed a scalable **MVVM-C + Repository architecture** with **DI**, enabling clean modularity and faster feature expansion.
- Delivered **70% automated test coverage** (Unit + UI) and set up **GitHub Actions CI/CD** to maintain quality from the first commit.
- Led **sprint planning, backlog grooming, milestone definition, and client communication** within an Agile workflow to ensure predictable delivery.

CitySavings SA App 🔗 - Bike Loan Application(Flutter)

- Led a 5-member team to deliver a **20+ screen end-to-end bike loan app** with product selection, KYC, document handling, approvals, and offline support for field agents.
- Delivered the app within a **challenging 1-month timeline**, helping **UBX** win a project with the **fourth-largest thrift bank** in the Philippines.
- Designed and implemented using **Flutter, Clean Architecture, Bloc and modular feature design** for scalable, cross-platform mobile and web experience.

Coherent 🔗 ProductFactory 🔗 iOS SDK (Swift)

- Developed and published an iOS SDK via **Swift Package Manager** and **CocoaPods** for seamless integration of insurance products.
- Streamlined iOS app integration by abstracting complex JS setup, enhancing developer experience and speeding up delivery.
- Built a modular JS wrapper and **Factory Pattern** bootstrapper with WKWebView, ensuring reliable SDK initialization, safer code, and cleaner API integration.

Roostoo Labs

Feb 2025 – Dec 2025

Senior Software Engineer (Flutter)

Hongkong - Part time - Remote

Roostoo 🔗 - Flutter (iOS 🔗 , Android 🔗 , Web 🔗)

- Led end-to-end delivery of a cross-platform Flutter app used by **10K+ users**, shipping stable releases across iOS, Android, and Web.
- Modernized the codebase from **Flutter 1.x → 3.27.1**, enabling null-safety, web support, and significantly improving performance and long-term maintainability.
- Designed scalable architecture and CI/CD pipelines using **GitHub Actions**, automating builds, tests, and deployments while collaborating closely with product and backend teams.

TPLMaps

Assistant Manager (iOS Development)

May 2017 – Oct 2020

Islamabad, Pakistan

Pakistan's Leading Location Data Company

- Contributed to **TPLMaps**  and **TPL Insurance**  iOS apps, delivering features such as live location sharing, favorite locations, navigation, Urdu speech-to-text search, geofencing, and direct-to-consumer insurance functionalities.
- Developed reusable components for the mapping services iOS SDK, enabling robust map features across apps.
- Implemented Test-Driven Development (TDD) and clean architectural patterns (MVC, UIKit, Storyboards) to ensure maintainable, high-quality code.

Dancom Pakistan Pvt. Ltd

Dec 2016 – Apr 2017

Senior software engineer (iOS)

Islamabad, Pakistan

Apps: Shaadeepk , JobAlertz, Tutoria

- Developed and maintained company iOS applications.
- Collaborated with designers, backend developers, and QA to deliver high-quality user experiences.
- Integrated RESTful APIs and handled data efficiently.

Whizpool

Feb 2013 – Nov 2016

Software engineer (iOS)

Islamabad, Pakistan

Transforming ideas into apps.

- Developed multiple iOS apps from scratch to App Store submission, leveraging sensors, location APIs, push notifications, REST APIs, SQLite, CoreData, AVFoundation, and other iOS frameworks.
- Managed memory with ARC and Non-ARC and built responsive UIs using .xib, Storyboards, Auto Layout, size classes, and autoresizing.
- Maintained client communication and delivered tailored solutions across projects.

EDUCATION

UET Texila (KICSIT)

Jan 2009 – Feb 2013

Bachelor of Engineering in Information Technology

Rawalpindi, Pakistan
